Cal OES COASTAL REGION

Major Exercise, Draft Bay Area Rapid Transit Authority Guidance and Framework Tabletop Exercise (NEW/FINAL)

Cal OES personnel participated in a Tabletop Exercise (TTX) today to exercise the Draft Bay Area Rapid Transit Authority Guidance and Framework using a scenario-based format hosted by the Department of Homeland Security (DHS) Science and Technology Directorate (S&T) Underground Transport Restoration (UTR) Project. Representatives from the Bay Area Rapid Transit District (BART), Centers for Disease Control (CDC), Environmental Protection Agency (EPA), and Federal Emergency Management Agency (FEMA), as well as State and local Public Health departments, and local law enforcement and fire departments attended this workshop. The purpose of the UTR Project was to develop actionable plans and deliver the first comprehensive Federal Operational Guidance and Framework that will assist subway systems in responding to a biological release, thus enabling rapid return to service (RRS). The project will identify potential solutions to meet operational requirements for rapid characterization, cleanup, and clearance of biological contamination in the physical structures (tunnels, stations) and rolling stock (railcars) of an underground transportation system.

- See 2017 Statewide Winter Storms Slides

Two Alarm Fire, Chinatown, San Francisco, San Francisco County

On 02/03/17 a Two-Alarm fire displaced residents from a two story building in Chinatown. The American Red Cross and Salvation Army have established a shelter to assist them.

- The Cal OES Coastal Duty Officer (CDO) is monitoring and will provide updates.
- Shelter: Salvation Army Chinatown Corp, 1450 Powell Street, San Francisco
 - Midnight Shelter Count: 15

Level 1	Level 2	Level 1	Level 1

Cal OES INLAND REGION

Oroville Dam Spillway Incident

- On 02/07/17 at 1000 hours, the Department of Water Resources (DWR) notified the California State Warning Center of an issue with the main spillway at Oroville Dam. Per DWR-DSOD (Division of Safety of Dams), 4 separate spillway panels have been damaged and the spillway has been closed. This sudden decrease of downstream water could cause erosion on the levees below. Additional inflow to the reservoir is expected with the coming storm.
 - At this time, there is no concern with the Dam itself. DWR has made low water notification calls to downstream reclamation districts to suggest they patrol the levees for problems.
 - DWR-DSOD Engineers are on site and assessing the incident and will provide an update as information is available
 - There are no requests for assistance

Cresta Dam Incident, South of Merlin, Feather River, Plumas County

- On 02/07/17 at 0923 hours, the CSWC received notification from Pacific Gas & Electric (PG&E) regarding a high flow condition on the river. The dam is out of service and the river is being allowed to run its course until the rate of flow naturally decreases.
 - There is no danger of the dam failing
 - There are no unmet needs or requests for state assistance.

Crane Valley Dam, North Fork, North Fork, Willow Creek Madera County

- On 02/07/17 at 1147 hours, the CSWC received notification from PG&E regarding a high flow condition on the river
 - There is no danger of the dam failing
 - There are no unmet needs or requests for state assistance.

New Bullards Dam Incident, North Fork Yuba River, Yuba County

- On 02/17/17 at 1721 hours, the CSWC received notification from Yuba County Water Agency regarding a high flow condition on the river. The level of the reservoir has been steadily increasing due to recent severe weather.
 - There is no danger of the dam failing
 - There are no unmet needs or requests for state assistance.

- See 2017 Statewide Winter Storms Slides

Cal OES SOUTHERN REGION

- See 2017 Statewide Winter Storms Slides

SITUATION SUMMARY

2017 Statewide February Winter Storms

Activations

- The State Operations Center (SOC) activated to level 1.

State/Federal Agency Preparatory Activities:

California Nevada River Forecast Center

- The California-Nevada River Forecast Center is currently at 24-hour staffing through Thursday night and will issue four hydrologic forecasts per day.
 - Staffing will be adjusted if conditions change.

Department of Water Resources

- The Department of Water Resources (DWR) Flood Operations Center (FOC) will be activated with an Operational Period of 0600-2200 hours.
 - 2200 hours - 0600 hours – Duty Officer Status.
 - A daily briefing will be conducted at 1000 hours until further notice.

Cal OES Law Branch

- The Law Enforcement Branch continues to monitor weather changes with the predicted incoming winter storms.

Critical Infrastructure.

- None reported at this time.

SITUATION SUMMARY

2017 Statewide February Winter Storms

Cal OES Coastal Region

Activations

- The Coastal Region Regional Operation Center (CREOC) was activated today to Level 2 in support of monitoring threats and impacts of severe weather throughout the region.
 - The CREOC resumed Level 1 activation as of 1730 hours today.
 - The region is not anticipating to return to Level 2 until later in the week, if needed
- Marin County Emergency Operations Center (EOC) deactivated on 02/07/17 at 2005 hours.

School Closure, Marin County

- Marin County EOC has reported that the following schools are closed due to weather related conditions
 - Kentfield School District, Ross School District, Tam Union and Sausalito/Marin City Schools.

Mission Tasking

2017-SOC-30115, Scotts Creek Levee, Lake County

- CALFIRE has been tasked to provide Hand Crews to assist with construction of a couple of small sandbag rings to contain boils starting to form near the Scott's Creek Levee at Hwy 29. The location is about 1/4 mile West of the gate on the West side of Hwy 29.

Proclamations

A Proclamation was received from Santa Cruz County on 02/07/17. The County proclaimed a local emergency due to damages incurred from the February rain storms and requests a Gubernatorial and State and Federal Assistance.

- See Proclamation Slide.

SITUATION SUMMARY

2017 Statewide February Winter Storms

Cal OES Coastal Region

River Forecast - The following rivers are forecast to meet or exceed Flood stage:

Del Norte County:

- Klamath River at Klamath is forecast to be above flood stage at 42.2 feet the morning of 02/10/17
 - Potential Impacts: Flooding of US Highway 101 near Requa Road, the road to Klamath Glen, and adjacent low-lying secondary roads near the delta is likely. Flooding will be amplified with high tides and strong onshore winds.
- Eel River at Fernbridge is forecast to be above flood stage at 21.8 feet the morning of 02/10/17
 - Potential Impacts: The western half of the Eel Delta may be completely flooded, especially if at or above this level for an extended period of time. This include areas northwest of Loleta, Cannibal Island Road. A Special Action Advisory is being issued to all owners of livestock in low-lying areas of the Eel Delta. These animals are at risk due to rising river levels, and appropriate action should be considered.

Mendocino County:

- Navarro River at Navarro is forecast to be above flood stage at 31.6 feet this evening, 02/07/17
 - Potential Impacts: Water will flow over the south bank of the river approximately 1 mile east of Highway 1, and begin to flood property in this area including six homes.

Lake County:

- Clear Lake at Lakeport is forecast to be above flood state at 9.7 feet the morning of 02/12/17.
 - Potential Impacts: Low lying structures and some main roads around the lake are threatened by the high lake levels.

Sonoma County:

- Russian River at Guerneville is forecast to be above flood state at 34.5 feet the morning of 02/08/17.
 - Potential Impacts: Moderate flooding is forecast along the lower Russian River. Numerous businesses and residences in the lowest sections of towns within the reach are expected to flood. Mill, lower 4th and 5th Street in Guerneville are forecast to flood. Redwood Drive in Northwood is forecast to flood.

Napa County:

- Napa River at Napa is forecast to be above flood stage at 25.7 feet this afternoon, 02/07/17
 - Potential Impacts: In the city of Napa, flow begins to leave the Napa River channel in the South Coombs area (north of Imola Avenue) and the south oxbow (near Taylor Street). Crop losses and erosion damage become serious. Moderate flood damage in lower parts of urban areas along the reach. Transportation in the Napa Valley becoming difficult. The flood of 2/3/1998 measured 26.72 feet.

SITUATION SUMMARY

2017 Statewide February Winter Storms

Cal OES Coastal Region

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

Humboldt County: Smith River at Doctor Fine Bridge; Mad River at Arcata; Eel River at Scotia; Van Duzen River at Bridgeville; South Fork Eel River at Miranda

Santa Clara County: Pajaro River at Chittenden

Monterey County: Carmel River at Robles Del Rio

Solano County: Sacramento River at Rio Vista

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

SITUATION SUMMARY

2017 Statewide February Winter Storms

Cal OES Inland Region

Cal OES Inland Region is monitoring weather related activity throughout the region.

- Operational Areas (OAs) are conducting their damage assessments from the January 2017 Winter Storms and are completing Initial Damage Estimates.

Activations

- Inland Regional Operations Center is activated to Level 2 to support Operational Areas in monitoring potential impacts from upcoming storm systems. Operational Period is 0800-1700 hours.
- Yolo County EOC is activated at Level 1 with an Operational Period of 0700-1900 hours
- San Joaquin County EOC is activated at Level 1 with an Operational Period of 0800-1700 hours
- Yuba County EOC activating at Level 1 at 1000 hours today. Operational Period is to be determined (TBD).
- Sacramento County EOC activating at Level 2 with an Operational Period of 1200-1900 hours
- Placer County EOC activated at Level 1 at 0600 hours today. Operational Period is TBD.

Evacuation Shelter

Shasta County

- American Red Cross (ARC) Shelter, 1501 McConnel Avenue, Shasta Lake
- Madera Co Public Health, ARC opening a shelter center at EV Free Church
 - 50443 High School Rd, Oakhurst, CA 93644-Zero persons are in this shelter at this time.

Deployments

- One Deputy Regional Administrator is deployed to Shasta County
- One Emergency Services Coordinator (ESC) is deployed to San Joaquin County
- One ESC is deployed to Yuba County
- One ESC is deployed to Yolo County
- One ESC is deployed to Placer County
- One Senior ESC is deployed to Sacramento County

Proclamations

- See Proclamation Slide.

SITUATION SUMMARY

2017 Statewide February Winter Storms

Cal OES Inland Region (Continued)

River Forecast - The following rivers are forecast to meet or exceed Flood stage:

Siskiyou County:

- Klamath River at Seiad Valley is forecast to be above flood stage at [17.1](#) feet the evening of 02/10/14
 - Potential Impacts: The Klamath River begins to flow out of its banks in some areas. Some low-lying structures may be flooded.
- Scott River at Fort Jones is forecast to be above flood stage at [17.8](#) feet the evening of 02/09/17.
 - Potential Impacts: Some flooding of structures at 15 feet or higher.

Modoc County:

- Pit River at Canby is forecast to be above flood state at [10.7](#) feet the evening of [02/10/17](#).
 - Potential Impacts: Moderate flooding in southwest Modoc and northwest Lassen counties.

Lassen County:

- Susan River at Susanville is forecast to be above flood state at [13.0](#) feet on the evening of [02/09/17](#).
 - Potential Impacts: Several homes on Carroll Street in Susanville begin to flood. Local flooding in Susanville from Lassen Street downstream along Riverside Drive, especially below Piute Creek which enters river near Alexander Drive. Moderate lowland flooding below Susanville in Johnstonville, Leavitt Lake, Standish, and Litchfield areas. Some rural roads affected by flooding.

Tehama County:

- Sacramento River at Red Bluff is forecast to be above flood stage at [253.7](#) feet the morning of 02/10/17.
 - Potential Impacts: The trailer house at the south end of Idle Wheels Trailer Park start to take water. Water is up to the parking lot at City Park. Paynes Creek Slough closes Bell Mill Road at Kaer Avenue.
- Sacramento River at Tehama Bridge is forecast to be above flood stage at [217.9](#) feet the evening of [02/09/17](#).
 - Potential Impacts: Between 213.0 and 214.0 Feet the county park becomes inaccessible. Lower trailer park slots (temporary slots) start to flood.
- Sacramento River at Vina Woodson Bridge is forecast to be above flood stage at [186.3](#) feet the morning of 02/10/17.
 - Potential Impacts: South Avenue start to flood east of the river

Plumas County:

- Middle Fork Feather River at Portola is forecast to be above [10.6](#) feet the [evening of 02/08/17](#).
 - Potential Impacts: Minor flooding of lowlands, rural roads, agricultural areas and some low structures between Beckwourth and Sloat California, including Portola.

Glenn County:

- Sacramento River at Ord Ferry is forecast to be above flood stage at [116.8](#) feet the [evening](#) of 02/10/17.
 - Potential Impacts: Design overflow level for M&T, 3BS and Goose Lake Flood Control facilities to divert flood flows into Butte Basin. M&T overflows closing River Road from Ord Ferry Road to Chico River Road. Ord Ferry Road is already closed.

SITUATION SUMMARY

2017 Statewide February Winter Storms

Cal OES Inland Region (Continued)

River Forecast - The following rivers are forecast to meet or exceed Flood stage:

Yolo County:

- Yolo Bypass at Lisbon is forecast to be above flood stage at [22.2](#) feet the morning of [02/12/17](#).
 - Potential Impacts: Ranches and farms in the area are subject to flooding.

Sacramento County:

- Cosumnes River at Michigan Bar is forecast to be above flood state at [13.6 feet this evening, 02/07/17](#).
 - Potential Impacts: Water floods houses in Wilton. The south bank levee near Wilton is overtopped.
- Mokelumne River at Benson's Ferry is forecast to be above flood state at [17](#) feet the morning of 02/09/17.
 - Potential Impacts: Some local farm roads are closed. Low lying areas along the river are flooded.

SITUATION SUMMARY

2017 Statewide February Winter Storms

Cal OES Inland Region (Continued)

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Tehama County: Sacramento River at Bend Bridge
- Glenn County: Sacramento River at Hamilton City, Sacramento River at Butte City
- Yuba County: Yuba River at Marysville
- Colusa County: Sacramento River at Colusa Weir; Sacramento River at Colusa Bridge, Sacramento River at Moulton Weir
- Sutter County: Sacramento River at Tisdale Weir; Sacramento River at Fremont Weir, Feather River at Nicolaus; [Feather River at Yuba City](#), [Feather River at Boyds Landing](#)
- Placer County: Bear River at Wheatland, Truckee River at Truckee
- Yolo County: Cache Creek at Yolo
- Sacramento County: Sacramento River at I Street, [Cosumnes River at McConnell](#)
- San Joaquin County: San Joaquin River at Vernalis
- [Stanislaus County](#): [Tuolumne River at Modesto](#), [San Joaquin River at Patterson](#), [San Joaquin River at Newman](#)
- Merced County: [Merced River at Stevinson](#), Bear Creek at McKee Rd

WEATHER OF CONCERN

Weather of Concern

- Two atmospheric river storms with heavy precipitation will impact northern California this week. The difference between this series and the early January storms is that now most reservoirs are full or close to full and many regions of the state have saturated ground.
- The largest impacts are expected in the Central Valley and the Sierra.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

Key Points

Two warm and wet storms will impact California this week with moderate to heavy rain starting tonight, heavy snow over the Sierra (snow levels above 7500K feet), damaging winds (excess of 50 mph at times) and thunderstorms with the potential of small hail and brief heavy rainfall.

- Flooding possible along unregulated rivers, streams, roadways, and low-lying areas Tuesday – Friday.**
- Rockslides and mudslides possible, especially along mountain slopes and steep grades tonight – Friday.**
- Debris flows also possible over burn scars with periods of brief heavy rain (greater than 0.50" per hour) tonight – Friday.**
- Heavy snow will cause hazardous travel over Sierra passes with travel delays likely tonight and again Thursday – Friday.**
- Winds will be strong enough to down trees and cause prolonged power outages Tuesday and again Thursday.**
- Thunderstorms are possible late in the week, with the potential for small hail, very gusty winds, and flash flooding.**

	Slight Threat
	No Discernible Threat

6 Day Precipitation Forecast

Valid Monday, February 6, 2017 – Sunday, February 12, 2017.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

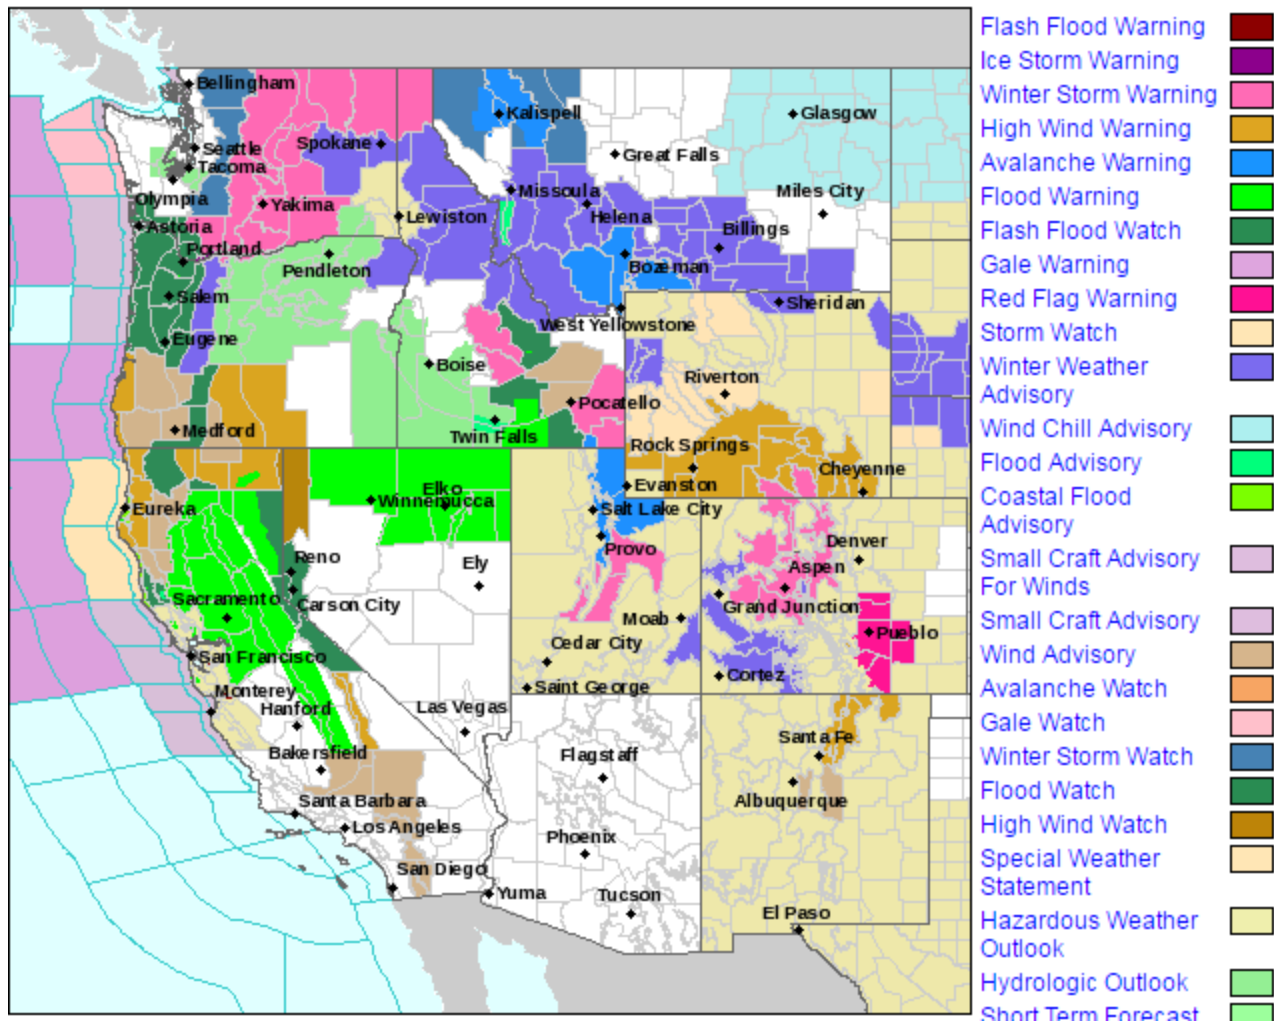

More wet weather will be moving into Northern California after the heavy blast of precipitation still working its way through the eastern and southern portions of the region today. Wind and precipitation will be on the decrease during the day today, but there will still be plenty of showers at least. More isolated thunderstorms are possible again today. There will be something of a brief pause between weather systems this evening, but early Wednesday the precipitation will pick up again and last well into Thursday. Snow levels will remain fairly high through Thursday's system at 6000-8000 ft or a bit higher, but will likely lower 1-2 thousand feet later Friday. Strong, gusty southerly winds will continue today and Wednesday, but they will increase significantly Wednesday night through Thursday. Wind speeds will become 15-30 mph in a lot of places with gusts generally 35-50 in the lower elevations and 45-60 mph in the higher elevations at that time. Precipitation and wind will begin to decrease later Thursday, but showers will linger through Friday night. Higher pressure will move into the region this weekend with a spell of dry weather Saturday into the middle of next week. Skies will still be partly cloudy at times this weekend.

SOUTHERN CALIFORNIA

Moist zonal flow will continue to bring rain to Central California through Wednesday morning and scattered showers to Southern California through tonight. Most Sierra locations will receive an additional 4 to 7 inches of rainfall, while the coastal slopes of Central California receive an additional 2 to 4 inches of rainfall. Most coastal and valley locations of Central California will receive an additional quarter inch to an inch of rainfall and most of Southern California will receive less than a quarter inch of additional rainfall. The snow level will be above 8,000 feet. South to west winds of 20 to 40 mph with gusts to 60 mph will surface across the mountain ridges and desert passes through tonight. Temperatures will remain near normal today, with mid 40s to mid 50s across the mountains and upper 50s and 60s in the valleys. Significant warming will occur Wednesday and Thursday as a ridge of high pressure builds northward into the region from Mexico. A trough will drop down the West Coast bringing rain back to Central California starting Thursday afternoon and across Southern California starting Friday morning. Rainfall will continue through Friday night. Most foothill and mountain locations of Central California will receive between 2 and 5 inches of rainfall, while most of the rest of the region away from the deserts will receive between 0.50 and 1.50 inches of rainfall with this storm. The snow level will be between 6,000 and 7,000 feet. South to west winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert locations Thursday afternoon through Friday night. There will be significant cooling across the area Friday and Saturday. A ridge of high pressure will build into the West Coast bringing a warming trend and low humidity away from the San Joaquin Valley Sunday through early next week. There will be strong offshore winds across Southern California Sunday morning through Monday afternoon.

Cal OES MISSIONS

Cal OES Missions

- **2016-Coastal-26477:** Cal Recycle debris removal assistance requested for the Clayton Fire in Lake County. **Mission Ongoing.**
- **2016-IREOC-21748:** Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**

Cal OES 2017 DROUGHT

The SOC remains activated in support of the Drought State of Emergency and continues to monitor the situation.

Current Local Emergency Proclamations:

A total of **57** local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 24 Counties: Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Madera, Mariposa, Merced, Modoc, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 10 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of Rancho Cucamonga (San Bernardino County), City of West Sacramento (Yolo County), and City of Fort Bragg (Mendocino County).
- 11 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County), Sherwood Valley Pomo Indian Tribe (Mendocino County), Tolowa Dee-ni' Nation (Del Norte), Tule River Indian Tribe (Tulare County), Tuolumne Band of Me-Wuk Indians (Tuolumne County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
